### Hollywood Hoodlums

Finally, Joe Thomas has come back to KURY Radio of Brookings, Oregon!

I guess it is true what they say when they say that genius always skips a generation. I mean Peter Fonda and his sister Jane would be living proof of that. Peter Fonda more or less threatened Obama's life a little while ago. Apparently, he did not much care for the way Obama responded to the BP oil spill. It is quite strange and bizarre that Peter Fonda would go so far out of his way to mention pedophiles so soon after we all find out about the perverted nature of so many people in Hollywood like Harvey Weinstein. His sister, Jane, says she knew all about Harvey Weinstein but she did not want to say anything during the 2016 presidential election because she wanted Hillary to win. Does the current silence by Jane Fonda indicate she is hiding something when it comes to her brother Peter?

For the record, Peter Fonda should be doing time at Fort Leavenworth with the likes of Maxine Walters and Madonna right now. Cretins and creeps like Kathy Griffin and Snoop Dog should be right next to them. The phony little idiot Jimmy Fallon can interview all of them since he feels so guilty about how his interview with Donald Trump went.

And remember kids, Meryl Streep is still a creep
